## FEDERATION OF LABOR.

The publicity given by the press to the charges made by the Federation of Labor against the defective work on the E-street school building, together with the fact that the commissioners have held an interview with the committee no doubt was the cause of the extra large attendance at the reging of the Federation last Tuesday

sided over by the first vice president, dele-gate Ledrue Hoyd, of the Mudcai Assembly. President McHugh wax announced as still ing out of the city, but was expected back the next meeting

Credentials of delegates were received from the Horseshoers Union in favor of William Gingerly, Thomas Reidy, Thomas Byrnes, Matthew Walsh and J. Horrigan. Carpenters' Assembly, Benjamin Hopkins in place of W. F. Meran, and from the Gal-vanired Iron and Cornice Workers in favor of W. Branzee, all of whom were admitted. The contract committee was instructed to investigate the Auth Brox. job on Vir-

ginia avenue and Sevenih street conh-west. It was stated that a former com-mittee had reported that the firm had premised to incert in their specifications, that only union men should be emplloyed on

Owing to the continued absence of Presiment McHugh, the committee on the Wash-Ington Post was unable to make final re-

Plasterers reported that the plastering It the Portner flats was being Jone by a religiable employer of union labor. Painters reported that after the second

meeting right in April the painters would adopt a new union card. Its color would be blue, and the delegates were requested to carry this matter to their locals.

Communication was read from the Bonve, Crawford & Co. Shoe Company, calling the

ction of the Federation to the fact that the differences between organized labor and the company had been amicably set-tled. After the secretary had read the agreement entered into between the Broc-ton branch of the L. P. U. and the Crawford Company, the Federation directed that the Crawford Shoe Company's name be taken

The report of the committee on the Estreet Schoolhouse was then taken up. The com-mittee reported that an interview was had with the District Commissioners in the presence of the building inspector and a

large number of interested citizens.
The committee further stated that a full perion of the matter had been made. The full charges had been read, together with the reply of the inspector and all corre-spendence had been carefully grae over. The committee had informed the Commis soners that with all the expence before the Federation, that body isstified in requesting that an impartial commission

The committee had further claimed that if given an opportunity the Pederation could prove all of its charges, and if the Commis-sioners would agree to this and make the investigation borough, the committee would take part, but if not, then it would decline. The Commissioners had agreed to this and would allow the Federation to have as

many disinterested witnesses present as it desired. Thursday, the 28th, at 2:30 o'clock was the time fixed for the investigation. The report of the committee was accepted and the agreement to take part in the investigation heartily indorsed.

The sentiment of the delegates at the meet-ing was that it was a relief to know that a thorough investigation was to be made a thorough investigation was to be made.

The delegates were further of the opinion,
that with the mass of evidence, such as has
been presented to the Federation week after week bearing on the crookedness of the work on the Estreet schoolhouse, they would not be honest men or doing their duly to the community, if the investigation had not

non-union menhad done the work but whether the charges were true or not, and nothing short of an investigation would satisfy the public. If the charges were proven true, the Federation would be commended, if not proventrae, it would be the duty of the Federation to publicly admit that it had been bonestly mistaken and misled by evidence that would justify an indictment before any grand jury in the country.

The committee was then instructed to assist the Commissioners in every way to have the

the Commissioners in every way to have the Investigation thorough and at the same time sught about the action of the Federation, ofter filling a vacancy on the committee shor Advocate, and the appointment of

DISTRICT ASSEMBLY Every officer of the District Assembly of the Knights of Labor was at his station and every local assembly in this jurisdiction was represented, when Master Workman Simmonslet fall his gavel at the regular meeting of District Assembly No. 66 last Thursday

evening.

The first business of the evening was the confirming of the Archeondegree on the newly elected delegates from the Carriagemakers and Bougiass Engineers Assemblies.

Several delegates gave their views of the investigation of the charges made by the Federation of Labor against the E street school building.

The violation of the eight-hour law at the Pension office was considered, but as orders had been issued to stop the same and the law was now 'eing complied with, the delegates

was now being complied with, the delegates

was now 'teing complied with, the delegates were satisfied to let the matter drop.

Under call of assemblies, the Plasterers reported that as their assembly had a good death benefit feature, they were not in favor of reviving the District death benefit fund. Their assembly had voted in favor of the conference committee on building a Knights of Labor Temple in this District, and had ap-pointed one of its members to act as that committee.

Carpeniets' Assembly delegates reported that their assembly requested the executive committee to see the Aurth Bros., in refernce to their work now going on at Seventh

reported that they were instructed to vote in favor of the reviving of the burial fund in favor of the reviving of the burial fund in the District Assembly. The Masical League had also waited on them at their has meeting, but had not been admitted Carriage makers' delegates reported that hey had a better attendance at their meetng last Monday night than at any previous me this year. The assembly was now a good order and the prospects were bright

for the future.
Delegates from the Ladles' Progressive Assembly extended an invitation to the delegates to be present at their meeting

next Monday evening.

Eccentric Engineers reported the names of two applicants for membership. Their assembly was very desirious of having a report from the "Post" committee. The nelegates were promised that full report would be made at the next meeting.

Bakers' brivers reported that Mr. Carby had been seen with reference to non-union drivers and the result was that the man would square up with the Assembly. The Assembly was increasing in membership and every one of the members at work.

Delegates from the horelass Assembly of

me of the members at work.

Belegates from the Bouglass Assembly of
Engineers reported the names of several
andidates. The Assembly increased its
membership at the last meeting by several
andidates.

The District organizer, Thomas P. O'Dea, announced that he had on last sammay or-gamised the Cement Workersof this ity into a local assembly of the Knights of Labor. The name selected for the new council was that of the founder of the order, Uriah 8, Stephens. The prospects for the Cement Workers' or-ganization are very flattering and it is con-fidently predicted that within three mouths, ridently prestrict that within three mouths every main working at that business will be in the new assembly. After the organizing coremonies had been concluded a full line of officers had been elected. The Assembly meets again Sunday March 21, at 2 o'clock in the Harris Hall, Seventh and Datreets, at which time, provided the charter and sup-lies have arrived, delegates will be elected to represent the Assembly in the District Assembly. The delegates and members of the order were fraternally invited to be pres-

ent at the Sunday meeting.

It having been announced that all differ-stors heretofore existing between the Craw-ford shoe company and organized labor had been mutually settled, the name of that firm was ordered to be taken off the unfair-

The master workman then appointed Delegates Coff, Pywell, and O'Dea as the standing committee on publication of the Labor Advocate for the ensuing

## Among the Locals

Carpenters' Union, No. 1, held its regular eeting last Wednesday evening. In addition to the routine business, the semiannual election of officers took place. A. B. Manuel was re-elected president, Secretaries Magee and Potter, also Treasurer Suter were re-elected. S. B. Barrett and Joseph Reilly were elected conductor and warden, respectively, and P. L. O'Brien,

The committee on securing a new hall The commattee on securing a new hair for meeting purposes, reported that the hall, No. 419 Tenth street northwest, could be secured for Wednesday nights. The report of the committee was approved, and the committee further instructed to secure

proposed series of debates on the principles contained in the premittle of the Knights of Labor at the meetings of Excelsior Assembly was attended with good results. The large attendance not only of members of the local, but of visiting members, at the last meeting of the assembly was ample. proof of this. The subject under debate last Friday night was the third principle of the order. The establishment of the referendum in the making of all laws."

The discussion, which was very inter-

sting, became quite general, and the annonnement of "time up" at 10 o'clock was disappointment to those who desired to

The Garvanized iron and Connec workers' Union is meeting with much encouragement at the present time. At the last meeting, held Thursday night in their half, 737 Seventh street, applications for membership were received from twelve persons. This, together with the many inquiries from former members as to how liey can be reinstated, gives assurance to those zealous members who so faithfully afood by the union in its adversity that their efforts have at last been crowned with

Owing to the hard times partly, but principally to the indifference of former mem-bers, it has been a hard struggle to keep the union from going to plees, but he work has been done, quietly but most effect-ually, and the union is now stronger than it ever was.

## Notes from the Courts.

for the appointment of a trustee in place of the late Henry L. Sherwood, to re-lease a deed of trust on part of lot 19, square 481, for \$450.

In the suit of Maxwel & Chase against foel M. Bryan to recover a \$1,500 fee for collecting \$20,000 for the Eastern Cherokee Indians, J. M. Vale yesterday filed a denurrer and made a motion to vacate the restraining order. The denurrer was over-ruled and the restraining order continued in

# DISTRICT SOLDIER BOYS

## One Week's News and Gossip **Around Local Armories.**

Major Campbell, of the Fourth Battalion, said some months ago down in the old armory that after the moving was over he would show some people that he was not sleeping. He kept his promise last Tuesday evening, and put up a dress parade and guard mount that opened the eyes of some of the officers who were present. Barring a few details it was one of the best seen there. Some of the men were without leggings, and some without gloves, but this was due to the incomplete arrangements in the new armory, companies have been unable to unpack their

stores and get in shape. Colors were escorted under goard from the major's quarters and attached to the color company, with the due ceremony. Line was then formed, with Lieut, Jacobdreet and Virginia avenue southwest, son acting as adjutant, with five comwhich request was granted.

The delegates further reported that a committee from the new musical league had visited the asembly at its last meeting.

Tin and Sheet Iron Workers' delegates battalion parade the ceremony was restant for the benefit of Col Clay who Capt. Simmons. At the conclusion of the battation parade the ceremony was re-peated for the benefit of Col. Clay, who, attended by Capis. Moyer and Bell, of his staff, had appeared in field dress. The officers having marched forward and aligned themselves in the rear of the c manding officer, the colors were detached and stationed on the right of the Major. The battalion was then swing into column by Sergeant-major Hodgson, who made his appearance as such for the first time, passed in review, companies being in command of the first sergeants. Colors were then returned under escort to the Major's quarters. Music was fur-nished by the National Guard drum corps, Sergeant Puval.

THE GRAND MARCH Guard mount then followed, with Capt, Walsh as officer of the day; Lieut. Dan-

forth, acting adjutant; Lieut, Nelligan, officer of the guard. In passing in review it was noticed that the officer of the day acknowledged the salute of the dram major. At the command, "officers and commissioned officers, Posts, March!" the officer of the guard returned to his post instead of remaining infront of the adjutant. At the conclusion of the inspection of the guard it was noticed that the officer of the guard took post four paces in front of its center instead of three. The adjutant is expected to the content of the second of the content of the c jutant, in assigning the officers and non commissioned officers, should preferably pass around the left of the commissioned officers, and, having assigned the sergeants and corporals, return to his post by the right flank of the same.

The changes in direction of both the guard

and the battalion were finely executed, both distances and alignment being close to regulation. The manual, as usual, left room for little comment. The entire drill was exceptionally fine, and taking everything into consideration it has not been surpassed in the little of the General Contents, it sets the history of the Guard. Certainly it sets the example for the Guard in the new armory. Quite a number of ladies were present. Had the hall not been so cold and had the lights been better all visitors would have

enjoyed themselves more. Somechangesof importance are about to be made in this battalion. Before leaving the made in this battalion. Before leaving the city Adjutant Edward Alien tendered his resignation to Major Campbell. At first the major was loath to accept it but he will forward it to headquarters this week. It is intimated that the new segreaut-major, F. S. Hodgson, will be the new adjutant. Sergeant-major Hodgson has been out of the Guard for a number of years and has lately joined the Fourth Battalion. He was first heatenment in the Old Washington Light Guard, serving with them eight years. The commanding officer of this battalion will present a fine sharpshooter's cross to the Before leaving the

The majors of the several battalions have all arrived at the conclusion to make the best use possible of the few remaining drillinghts before canno. The companies having their owndrill at the conclusion of such ceremonies as the majors may direct. As an incentive the attendance of the summer music will be urnished and all the lady friends are asked o be present at the dance which follows.

AMONG THE TROOPERS.

Troop A is having a little boom of its own Its quarters are rather cramped, but the hove do not mind a little thing like that. During the week three transfers have been made, and this brings the strength of the troop up to sixty-one men. The officers expect to have seventy. Just now they are taking all kinds of odds on their candidate for inspector of rifle practice in the separate ompanies. The vacancy is caused by the signation of Leut. W. H. Mallach. There rolls of the troop as a private. An examina ton for non-commissioned officers began last night. Four new sergeants and five corporals are to be appointed, and there are about twenty-five aspirants for the pro-motion. The examining board consists of Lieut. Pilisbury, First Sergt. Simms, and Second Sergt. Conard. The examination will be continued to morrow night.

will be continued to morrow night.

The commissioned officers of the troop have been appointed a committee to report on the second Monday of April on the advisability of having an excursion of some kind to meet the expense of the proposed outing in July. The outing has been deterouting in July. The outing has been teremined on buy. The country as are concerned, and the boys are only awaiting Gen. Ordway's return to breach the subject to him. If they go it means that they can not attend camp. They think Gen. Ordway will excuse them from camp, where their duties would be of a routine nature, their duties would be of a haddle lattle, to take their proposed trip. The expense of the march would be about \$6,000, and this is why an excursion would be necessary. The troopers are all ready now to form clubs, and it is probable the assessment would be \$20 per man. The march would be made Re \$20 per man. The march would be made with Troop A, of New York city, which guarantees fifty men for the trip. They would reach the city some Thursday night in July, and on Friday moraing, in regular Troop A weather, the boys would start for Frederick, where they would spend Sunday and go to church. From Frederick the line of march would be to Emmettsburg, to Hanover, to Gettysburg, where the com-mands would camp for three days. Then the march would be to Chambersburg, to Hagerstown, to Frederick, and home. Wagons with provisions would be taken along and the troopers would be regular

BRIGADE HEADQUARTERS MOVED. Brigade headquarters has been moved into the new armory. The last load of stores was hauled down Wednesday afternoon. This means now that the entire goard is under one roof, barring the First battalion. Brigade Staff Sergt. L. A. Roginski has reported for duty, along with the brigade headquarters, and is busy fixing up his rooms. Tuesday evening he was putting up saddle racks, and the lights in the room were so dim that he could not see the screws. He kicked a little, but went ahead. During the absence of the brigade at camps the walls of the armory are to be calcamined with an Erglish preparation which, after it is dry, can be scrubbed. The chings will be tinted cream color and walls a light terra cotta with a heavy frieze. It will take almost 100 men to finish the job in the time allotted. The lockers all through the building are being Tuesday evening he was putting up

lockers all through the building are being numbered, and soon all the odds and ends will be straightened out.

If there is any possibility of their going Company A, Second Battalion, Cororan Cadels, purposes to take part in the Memphis drill. The company commenced drilling Thorsday evening, and if it finds it can get in good shape, and can raise the necessary money, it will go to Mem-phis. The company will not say much drilling Thorsday evening, and if it finds it can get in good shape, and can raise the necessary money, it will go to Memphis. The company will not say much just now, because it was disappointed iast fall in the Richmond drill. The

## AN OBSTINATE CASE.

### The Wonderful Narrative of a Patient Sufferer.

A Most Powerful and Impressive Lesson.

Diseases of the nervous system are without doubt the most common of all affections at the present day. Nervous nessend exhausted nervous vitality are not only frequent but the property of th distressing diseases. The terrible ravage of these diseases is not confined to any parfor any length of time on one subject, loss of self-confidence, distasts for company, desire to be alone, and periods of insomnia. Six weeksago I placed myself under the care of Dr. Walker, the specialist, and I feel it my duty to my fellow men to unhesitatingly say that his treatment has worked a wonderful change; my nerves are now steady, my sleep restfol, and instead of waking as I formally did. more tired than when I went to bed, I now wake rested and eager for the duties students and clerks, whose brain, being con stantly active, require a more than ordinary amount of nerve force, often find their power of thought decreased. Where formerly they could endure many consecutive hours of close application of their mind, they now find that the thoughts wander. Ac-

the above symptoms become more pronounced there is usually a derangement
of the digestive organs. There is often a
bad taste in the mouth, especially in the
morning dizzness, constipation, flatulency,
pain about the heart, papitation, distress
after eating, followed by bloating. Persons thus affected are apt to become despondent, melancholy, blue, and generally wretched. The nerves become so
weakened after a time that the least excitement or shock brings on trembling,
and frequently a sense of heart failure.
Thousands of people right here in Washington to-day are suffering from a portion
or all of these symptoms, and yet do not or all of these symptoms, and yet do not realize that they are suffering from ex-hausted nervous vitality, from overwork, brain-fag, or those excesses and abuses which will inevitably break down the strongest constitution unless proper steps

be taken to guard against such a terrible It is the old, old story, but it brings new hope to thousands of weary sufferers, for it tells of Dr. Walker's unparalleled suc-cess in curing all nervous and chronic diseases—of restoring to perfect health and happiness the victims of catarrh, commanding officer of this battalion will present a fine sharpshooter's cross to the enlisted man of the Fourth who makes the highest score at the regular practice on the range for the senson of 1895. All enlisted men of the Fourth are eligible for the competition.

The majors of the second to the competition.

well-known sanitarium, at 1411 Fenn-sylvania avenue, adjoining Willard's Hotel, is open daily for consultation and treat-ment. Office hours, 10 a. m. to 5 p. m.; Wednesday and Saturday evenings, from 7 to 8; Sundays, from 10 to 12.

Charges for treatment very low.
All interviews and correspondence sa-

have made the most careful preparation and when it was declared off were greatly disappointed. This time they mean to go about it very methodically and quietly. If they can go no fuss of any kind will be If they cannot no one will be nted. The Fencibles and Mormade. If they cannot ho one will be disappointed. The Fencibles and Mor-ton Cadets, however, are working hard, and the Hibernian Rifles are not behind them. Every morning now these compa-nies can be seen hard at work in the drill hall, the company rooms, or on the streets,

peace will once more reign in this famous company will be hard to say. Last Monday night the members braced up, got on their full dress unitorms, and went up to visit the ice palace. The members let on that they loved each other, whether they did or not, and the evening was passed

they did or not, and the evening was passed pleasantly. The following is a copy of a card scut out some time ago:

"As the present action of the board of directors seems adverse to the general senti-ment of the corporate members, it seems fit that we take among ourselves some preconcerted and united action in order that we may successfully oppose whatever legislation is inimical to us. For this purpose we earnedly request your presence at the banquet hall of William's Hotel, Wednesday, March 20, at 8 p. m. sharp.

done is not known, but it may be made a subject of inquiry at the regular meeting.
Thursday night. Capit Oyster and the majority of his officers were not invited and when asked about the meeting, Capt. Oyster had to plead ignorance. The trouble over the property owned by this company is worrying a certain element very much. In this element is found the men who have the best interests of the organization at heart. It is said they are daily losing interest and there may be a grand uple avail some of these days. It is hoped the troubles may be satisfactorily arranged at the meeting Thursday night. At the last meeting, five recruits were taken in and Capi. Oyster was authorized to appoint a committee of three to decide whether the company should hold a series of "smokers." In this connection some interesting ath-letics have been suggested, and it may be the company will go in this line.

Capt. Story is jubilant over having a new lock on his room, even if he has none new lock on his room, even it he has hone for the lockers.

Private John Walsh was given his prac-tical examination for captain Tuesday evening by Capt, J. W. Parsons, detailed from the brigade examining board for

that purpose.

Companies C and D. Fourth Battalion.

A grand ball will be given at the club

# AMONG LOCAL ATHLETES

## What Is Going on in Amateur Circles on Land and Water.

A joint meeting of the committees from the Columbia Athletic, Anaiostan, and Potomac Boat Clubs has been called by President Grant, C. A. C., for next Thursday evening, to discuss the subject of helding weekly or fortnightly inter-club shell races upon the plan suggested by Mr. Grant and printed in this column several days ago.

The plan will be thoroughly gone over, and argued pro and con, and if the plan is found impracticable, then some plan will be adopted which will tend to increase the interest in local rowing, and at the same time a'd in improving the work of the oarsmen.

It is feared that by having the races too often the men would tire of the constant work and ceaseless training, and in that way the plan would do more harm than good. The men coraposing the several committees

are all practical men, and there is no doubt

they will report some plan which will be acceptable alike to the rowing men and the officials of the clubs they represent. The rowing season promises to be an unusually active one, and a number of good, strong crows will represent the Potomac River clubs in nearby open events.

BASKET BALL AFIELD. There is no good reason why the game of basket ball would not be a splendid field game to be played in the spring and early fail. There are two teams who stand ready to play the game on their

who stand ready to pay the game on their grounds and several match games are already spoken of.

With a larger playing field than the gymnasium affords and with the advantage of foul lines and the soft turf to play on, to do away with possible danger in falling, it is believed that the game could be made as possible as no collect as it. be made as popular as an outdoor as it has proven itself an indoor game. An outdoor game will be played shortly by two teams of C. A. C. players.

SPARKING, WRESTLING AND FENCING. In view of the fact that a number of persons had expressed the hope that sparring and wrestling and fencing would be in cluded in the C. A. C. programme, and which, of course, it was impossible to have, all in one evening, it seems that some of the local organizations could make a good thing, financially, and other-wise, by arranging for open champion-ships in the three branches vamed above. There are a number of good men in ach of the above events in each of the

local amateur athletic organizations to make the events very interesting and profitable. COLUMBIA ATHLETIC CLUB. Now that the open indoor championships are over, Prof. Crossley and his athletes of the Columbia Athletic Club are taking up the work of preparing for the club benefit, to be given at the Academy on April 22d.

In addition to musical and other fea-tures, the caternamment will have sev-eral excellent attlette and gymnastic numbers, and principal among these will be the haman pyramids.

They will be at least five high, and sev-

eral novelties in building will be intro All members who desire to try for places in the pyramids are requested by Prof. Crossley to meet in the gymnasium on

Tuesday and Friday evenings for practice The ciob is always ready to assist in the promotion of athletics in all its branches, not only in its own ranks but in the ranks of sister organizations, and following out this line, the board of govfollowing out this line, the board of governoers, at a recent meeting, decided to allow the clob's gymnasium tram to appear as one of the features of the entertainment to be given at the Washington Athletic Clob, April 19th. The full team will go down and give, as it usually does, an excellent exhibition of its work.

On April 18th, the last Ladies' Day of the season will be given at the Columbia Athletic Clob with novel features.

Royce Hogh is the lion of the day. He very modestly bears the attention be receives for his excellent record-breaking work of last week.

It was unfortunate that neither Dudley nor McElhone were in the best of condition.

Smart, 3; Chaudice, 2, and Fischer, bow. Every effort has been made to have the present incumbent, Louis Fischer, retain the position of captain, at least until after the May 11th race, but he declined because of tax of time. Mr. Fischer will, however, as opportunity affords, help the crew in its work.

J. Rosh Marshall has declined to stand for election to the captainey.

At a caucus field during the week Mr. Moore, a hard worker in the shells last year, and a good all-around man, was named as the successor to Capt. Fischer, and his part of tax of time. Are the position of captain, at least until after the May 11th race, but he declined because of tax of time. Mr. Fischer will, however, as opportunity affords, help the crew in its work.

At a caucus field during the week Mr. Moore, a hard worker in the shells last year, and a good all-around man, was named as the successor to Capt. Fischer, and have the position of captain, at least until after the May 11th race, but he declined because of tax of time. Wr. Fischer, retain the position of captain, at least until after the May 11th race, but he declined because of tax of time. Wr. Fischer, retain the position of captain, at least until after the May 11th race, but he declined because of tax of time.

or McElhone were in the best of condition nor McEllione were in the best of condition in the championships. At least one more record would have gone still higher if they had been in better shape.

Many regretted that Basil Duke's foot was not in good shape for the batule leap-ing in the height event. His record of eight feet six was taken by Taussig with the bar

at mine feet two: a very excellent perform Eddie Sewall and Midge Rossgave a better

performance on the parallel and horizontal than the majority of men traveling around Bobby Elder, who stopped jumping when he cleared fourteen feet, so be says, in the standing broad jump, announces that, in compliance with a general demand, if there are enough of the club sparrers and wrestlers who announce their intention of going in, an evening of sparring and wresting by club members only will be held. Those who desire to take part are requested to leave their names and weights at the club office. The bowling tournament for the club

championship in tenpins is progressing. The third set of bowlers will play to morrow night.
The arrangement of having to bowl four games an evening is not a popular one. It takes too long. The league found three games too many, and spoke of reducing the

number to two.

Tom Wilkinson, Dr. King, and Ziegler the club's champion shuffle-board

YOUNG MEN'S CATHOLIC CLUB. The pool team of the Y. M. C. C. was unable to go to Baltimore with the bowlers and for the time being the pool match is

off. The tennis players are taking practice now and when the "cracks" are in shape and the season under way, several challenge sets with other teams will be arranged. Those who show up best in practice are W. Ryder, D. Downing, A. Schwattz, J. P. Kennelly, J. R. Lausdale and B. Lehnan.

and B. Lehman.

A little late now, but in order to get it in shape for next season, preliminary class work in the grimasium will be taken up shortly. P. O'Brien, G. Bauer and D. O'Leary are hard workers, and doing D. O'Leary are hard workers, and doing some good tricks on the horizontal bars. Capt. Lansdale is very hopeful of his bowling team, which, while it has done well this year, he hopes will'do even better work next season. He has some good material to work on as the games with W. A. C. on Friday night showed. The library has received some additions to its already well filled shelves. The debating society will get out its The debating society will get out its new subjects during the week.

WASHINGTON ATHLETIC CLUB. The athletic amusement committees are working hard preparing for the club benefit to be given in the gymnasium on Apri

The fact that the C. A. C. gymnasiun team has volunteered its services for the occasion has aroused a great interest in the affair. It will be an exhibition such as has never before been seen at this club house. H. Storey has charge of the tenpin toni nament for the club championship, the date of the beginning not yet being fixed. Prizes will be given for most strikes and highest number of pius. Shackleford and Graham, of the Burnt

Cork Club, and James Johnson were wel-come visitors to the club last week, and highly entertained the members with their A ninepin tourney will follow the ten-

An Agreement Reached Between Those Concerned.

TO ALL. Вносктох, Рев. 25, 1895.

To whom it may concern on the Crawford Shoe by the American Federation of Labor, at the convention held in Birmingham, Ala., in December, 1891, by order of the Brockton branch of the L. P. U., of America, is this day declared off, as an agreement satisfactory to the Brockton branch

Crawford shoe, has this day been reached. Acting under the agreement the following letter has been prepared, which will be sent to every local union and made public in all parts of the country for the tenefit of the firm:

To tehom it may concern This is to certify that the differences heretofore existing between the firm of Bouve, Crawford & Co. and the Brockton branch of the L. P. U. of America, has been amicably settled.

We recommend the Crawford shoe to all members of our eraft and to trade-unionists and members of labor organizations in gen-

BROCKTON BRANCH OF L. P. U. OF AMERICA. President, David FITZGEBALD. Secretary, George N. Hubbard. THE CRAWFORD SHOE

#### CAN ONLY BE PURCHASED IN WASHINGTON AT THE Crawford Shoe Stores,

No. 903 Pa. Ave. and Cor. 13th and F Sts. members of the board of governors of the

Capt. John Hadley Doyle, who has served the club well, declines to stand for re-election. The probable candidates are Lieut. W. E. Merritt, Will Office, Licut.

Lieut W. E. Merritt, Will Office, Lieut, Joe Oliver, and Harry Rohrer. Any one of these would make a goest officer.

President George J. Johnston will be unanimously re-elected for the fifth time.

Janitor Bromley has put out the floats and oiled up the boats, and everything is in readiness for the paramen.

The club will make a feature of its fortinghtly races. They help materially to develop local oursmen.

Capt. Shepherd is putting the deck on his sloop "Nancy." She is fast, and will be entered in open events of her class during the season.

ANALOSTAN BOAT CLUB. The coming season at the Analostan Boat.

The first regular shell crew of the senson went out from their house last weeks, and went over the lower coarse. The crew was composed of Moore, stroke; Smart, 3; Chaudies 2, and Fischer, bow. Every effort has been made to have the present incumbent, Louis Fischer, retain the position of captain, at least until after the May 11th race, but he declined because of lack of time. Mr. Fischer will, however, as opportunity affords, help the crew in its work.

J. Rush Marshall has declined to stand for election to the captaincy.

At a caucus field during the week Mr. Moore, a hard worker in the shells last year, and a good all-around man, was The first regular shell crew of the

board for ratification, OSCAR P. SCHMIDT.

# DR. CARLETON

FOURTH YEAR AT

507 Twelfth St. N. W.

Over 25 Years' Experience. A SPECIALIST AND EXPERT

DISEASES

DISABILITIES

Do you feel more fired in the morning than on going to bed? Do you have melancholy spells? Are you unable to concentrate your mine. Have you poor memory? Do you feel an it other for business or society. Jeel fur, device to be alone irritable, despondent, and almost demoralized, feel generally used up, and that life is being the harmony. ized, feel generally used up, and that life is being its charm for you. If so, you are afflicted with

And if you do not receive prompt and efficient medical treatment you may be at-tacked suddenly by

CONSULT

DR. CARLETON.

Ninety Per Cent.

Of men, at some time of life, between the ages of 21 and 50, become affricted withorgaine and pervons weakness and LOSS OP SEXUAL POWER, partial or resimplete. It does not by any means follow that men so attacked have been guilty of either fault or excesses, as only too often do we find the sufferer's babits to have been quite exemplary in all except that he is

And permits himself to be burnased and racked by a thousand and one formenting problems consequent upon his desire to get rich, the worry of his business of profession, or his aspirations for Social and Other Distinction.

Thousands of others have burned the candie at both ends, so to speak, itsininged in excesses during youth, and after marriage,
perhaps, now realize the enevitable resunt.

Few escape the direful consequences of
folly. The crop insown, and for harvest we
have lack of sherry, raive force, ambition,
a want of self-candidence, and feel unfit for
business, society, or to marry.

The best interests of such sufferers will be
promoted by consulting

ORGANE WEARNESS, IMPOTENCY, with all its train of mescable forebodings, doubt, disability, fears, and subintrassment denoralizes a man; he loses dignity, becomes denondent, sometimes thinks of committing succide, sees nothing to live for, and feels generally discontented with himself and all the world.

This condition of lost or failing vigor in married or single, no matter how induced, can be cured by the scientific and advanced methods of treatment employed by Dr. Carleton. Age no impeliment.

YOUNG MEN Who are troubled with dreams and drains, which sooner or later exhaust vitality and result in nervous debility or other serious conditions, should consult Dr. Carleton, He will take an interest in them and get them well.

A description of this most dreadful dis-case is unnecessary here: Furface it to say that its treatment by scientific men to-day is very different and lar in ad-vance of what it was some years ago. Dr. Carleton's method of treatment is pre-eminently successful, and he guar-antees an absolute cure and complete eradication of the disease in shortest possible time by intestscientific meth-ods; worst-cases tolicited.

Blood and Skin Diseases, Blood Poison, Synthias, affecting the Body, Throat, Skin, and Bones: Muccus Patchesin Mouth, Ulcers, Tumors, Warty Growths, &c. scientific freatment; guaranteed cure. Ulceration of Leg or other parts. Worst cases solicited, Cure effected or money retunded.

Kidney and Bladder Aliments, Painful, lifficult, Too Frequent, Milky or Bloody rine, and all matters relating to Urinary assage promptly cured. PRIVATE DISEASES,

RUPTURE, STRICTURE, Scalding, Burning, Smarting, Frequent Urination, Discharges, Irritation, etc., radically cured; untailing method. No knife, no pain.

Regarding testimonials, I will briefly state that in all my years of practice I have never asked a patient for a testimonial, as I know only too well that no self-respecting man would like to have his private allments paraded before the public. Every case I treat is a confidential one between the patient and myself, and those people who are willing to give a testimonial which involves a public exhibition of their discasses and disabilities cannot be relied upon to tell the truth. This is the reason why we do not publish testimonials. testimonials.

Don't waste precious time. Consult Dr. Carieton. He will take an interest in rou, he will get you well. His long residence in this city and his brilliant record of cures effected in apparently longless cases entitle him to your confidence.

of these diseases is not confined to any particular age, the young, middle aged and old alike being subject to their distressing influence. The following statement wasmade to the reporter by Mr. C. M. Sorrels, who resides at 1234 Four and a half street southwest: "I am employed at the National Museum as an engineer. Thave been a sufferer from nervous debility for several years. About six months are my trouble assumed a serious form; I had severapain inmy head and spine, dizziness, loss of memory, fluhsing of the face, dull feeling head and eyes, nervous tremors and tremblings, despondency and depression of mind, inability to fix the mind for any length of time on one subject, loss of I now wake rested and eager for the duties of the day. I know that Dr. Walker has done a great deal for me, and I cheerfully recommend him to any one suffering from the same complaint as I did. I will glady substantiate the above to any who will call on me at my home, 1234 Four and a half street southwest." Many men who had formerly suppose dthemselves possessed of formerly suppose difference possessed of a powerful physique and strong and steady nerves, wonder at their feeling of exhaustion, lassitude and lack of inclination for physical or mental exertion. Where before they had a feeling of strong and vigorous nerve power, always ready for any mental or physical work, they now have only a sense of weak-ness languar and dullness. Business menwork, they now have only a sense of weak-ness, languor and dullness. Business men, whose prosperity depends upon their clearness of brain and mind find their mental strength inpaired and their endurance and power to work diminished. Professional men,

companying this there is apt to be an extreme nervous and irritable condition, a dull, cloudy sensation about the head and eyes. As this condition continues and the above symptoms become more pro-

many other aliments that baffle the average physician. It tells young and middle aged men who are suffering from the effects of their own youthful follies and excesses that they may be restored to the full vigor and strength of perfect manhood. Dr. Walker may be consulted free of charge, personally or by letter. His well-known sanitatium, at 1411 Penn-
